## Q&A on CalAIM Payment Reform

Revised on 07/05/2023

### A. RATES & CONTRACTED PROVIDER REIMBURSEMENTS

- Which programs or contracts will be impacted by payment reform? How and when will payment reform changes become effective?*

**BHS:** All programs that generate FFP will be impacted by payment reform. County BHS is rolling out contract amendments in stages.
- Will San Diego be implementing payment reform on July 1, 2023? If yes, when will the county be sharing the rates? If no, how will the county be reimbursing moving forward on July 1?*

**BHS:** County BHS is analyzing data and developing the rates to ensure methodology is equitable. More information will be shared within the next few weeks.
- Will the budget template change under payment reform, and if so by when will it change?*

**BHS:** The budget template will be streamlined under payment reform via a contract amendment.
- Do providers still need to report on productivity under payment reform?*

**BHS:** Productivity is expected to be managed at the program/contractor level.
- How do providers prioritize spending under payment reform?*

**BHS:** Providers should align spending with revenue projections.
- Will payment reform have an impact on MHSA-funded programs, and if so, how? How will MHSA funds be accounted for in the new contracts?*

**BHS:** MHSA is leveraged in various ways. Payment reform impact is contingent on how MHSA is utilized by the program.
- Will risk sharing be considered in the new contracts limiting potential losses in the first year or two?*

**BHS:** A success pathway methodology is in the process of being established to minimize provider risk. Additional information is forthcoming.
- I attended a county CalAIM Zoom/Teams meeting on 4/21/23, but I have not been aware of other calls. I had a hard time finding access to any meeting recordings/slides for more recent dates on the county website. Please advise if these are available anywhere?*

**BHS:** Please refer to [CaAIM for BHS Providers](#) webpage which includes local and state information.
- Will there be any changes for program integrity tasks such as billing reviews or auditing?*

**BHS:** Program integrity tasks are expected to continue in some form. More information is forthcoming.
- Will the County provide "hold harmless" agreements through the initial transitional term as long as providers are meeting all other terms of their contract SOW?*

**BHS:** A success pathway methodology is in the process of being established to minimize provider risk. Additional information is forthcoming.

## Q&A on CalAIM Payment Reform

Revised on 07/05/2023

11. *When will we get information on the CalAim behavioral health payment reform cost sheet? When can we anticipate the changes?*

**BHS:** County BHS is analyzing data and developing the rates to ensure methodology is equitable. More information will be shared within the next few weeks. Rate roll out is expected to be in stages beginning the 1st quarter of FY23-24.

12. *Are rates expected to be set per contractor or per service line? Will rates set for specific types of lines of services?*

**BHS:** Outpatient rates are set by provider discipline, with modifiers being considered for specific program types. Rate roll out is expected to be in stages beginning the 1st quarter of FY23-24.

13. *Will there be flexibility for different rates based on contract needs?*

**BHS:** Modifiers are being considered for specific program types.

14. *Will the county be transparent with the state maximum rate and their county rate to the providers?*

**BHS:** Please refer to [BHIN 23-017](#) for the State's rates for Counties. Provider rates are expected to be rolled out in stages beginning the 1<sup>st</sup> quarter of FY23-24.

15. *Will rates be inclusive of administrative costs for non-billable administrative requirements for contracts?*

**BHS:** Rates will be inclusive of admin costs.

### B. CPT CODES / EHR

1. *Will Millennium be the required EHR for Mental health Medi-Cal service documentation with no cost to contractors?*

**BHS:** There is no cost to use the COSD electronic health record. BHS will continue to allow clinical documentation in other EHRs, while requiring data points for DHCS specific reporting and billing purposes in the County EHR, until future work towards interoperability is completed.

2. *What is the plan for interoperability for contractors to use their own EHR?*

**BHS:** BHS will continue to allow clinical documentation in other EHRs, while requiring data points for DHCS specific reporting and billing purposes in the County EHR, until future work towards interoperability is completed.

3. *Will providers be required to bill the State directly for claims, including scrubbing and resubmission of denied claims? If so, has the creation and cost of sophisticated claims departments been considered in the rate structure?*

**BHS:** There is no change in current billing processes. Providers are to continue data entry of claims through the CCBH and/or SanWITS. The County will continue to send Medi-Cal claims to the State. Providers who bill other insurances will continue to do so as is current process.

## Q&A on CalAIM Payment Reform

Revised on 07/05/2023

4. *Will the county allow contractors to claim expenses associated with an EHR if contractors choose to use something other than the WITS systems?*  
**BHS:** Under Rate Based Contracts, Legal Entities are able to use funds provided on any expenses that support their provision of contracted services.
  
5. *We understand that billable services will not include documentation or travel time in the reimbursement, but will Cerner account capture it, and Optum report it for our QSRs?*  
**BHS:** The rates developed for face-to-face services were calculated using costs related to documentation and travel time. The County is requesting providers continue to enter travel and documentation time separately so data can continuously be used for rate methodology calculations in the future. TUOS reports are being re-programmed to include separate lines for travel and documentation time for tracking purposes.
  
6. *The service model is based on 60% productivity which includes non-billable codes, documentation, and travel time. Will there be budget and contract edits to respond to this system change?*  
**BHS:** Requirements will be revised to align with Rate Based Contracts when they are executed.
  
7. *What are the Cerner service code conversion to CPT codes, and when will they be available to providers?*  
**BHS:** Please refer to these links:
  - [2023-05-20-BHS Provider Memo-Payment Reform CPT for SMHS and CPT Crosswalk Excel Book for SMHS version 6.20.23](#)
  - [2023-05-15 Payment Reform CPT for DMC-ODS and CPT Crosswalk Excel Book for DMC-ODS version 5.15.23](#)
  
8. *We are looking for guidance on how the county will be implementing coding changes. Does San Diego have a code set that can be shared, that includes how the county will be using all of the add-on codes and modifiers? Is there a timeline for when the county may be moving to these codes?*  
**BHS:** Please refer to these links:
  - [2023-05-20-BHS Provider Memo-Payment Reform CPT for SMHS and CPT Crosswalk Excel Book for SMHS version 6.20.23](#)
  - [2023-05-15 Payment Reform CPT for DMC-ODS and CPT Crosswalk Excel Book for DMC-ODS version 5.15.23](#)
  
9. *Will there be any changes in county expectations for collateral contacts required by contract?*  
**BHS:** Requirements will be revised to align with Rate Based Contracts when they are executed.
  
10. *Will all staff have the ability to bill for reviewing charts prior to a client no showing their appt?*  
**BHS:** DHCS policy states that only direct patient care should be counted toward selection of time. Direct patient care does not include travel time, administrative activities, chart review, documentation, utilization review and quality assurance activities or other activities a provider engages in either before or after a patient visit. However, established rates were developed to incorporate such non-billable

## Q&A on CalAIM Payment Reform

Revised on 07/05/2023

activities.

### 11. Questions on specific CPT Codes:

- Code 5 for screening for full and part-time walk-in services: This service is in our SOW and built into the budget, but it seems like there is not a way to account or get paid for this service?
- Code 65 for outreach for full OAOS services: This service is in our SOW and built into the budget, but it seems like there is not a way to account or get paid for this service?
- Code 33 is going away – so when we are collaborating with family or other service providers, would this be code 50?

**BHS:** While Service Code (SC) 5 will no longer be available as of 7/1/23, providers are encouraged to begin utilizing information from the initial screening form as part of the assessment process and claiming for these services. SC 65 will remain available at this time and as we transition to Rate Based Contracts, there will be updates communicated. SC33- Collateral will no longer available be available as a stand-alone service. It will instead be claimed under the service which is the focus of the contact with the significant support person. For example, case manager meets with a family member to discuss the coping skills the client is working on and the tools for the family to support. This would be documented as a Rehabilitation service with Provided to: Family.

### 12. How will CPT codes be audited?

**BHS:** The appropriate use of CPT codes will be monitored through medical record reviews.

## C. OTHER QUESTIONS RELATED TO CALAIM PAYMENT REFORM

### 1. Will services require prior authorization with payment reform?

**BHS:** Only services required by DHCS to have a prior authorization as currently outlined in [BHIN 22-016](#) for SMHS & [BHIN 23-001](#) for DMC-ODS.

### 2. Will the Utilization Review process change under payment reform? If so, how?

**BHS:** Programs will still be required to conduct UR activities to ensure medical necessity, appropriateness of care and to detect and prevent fraud, waste, and abuse.
