

Copy of Physical Exam Results

Place physical exam results documentation provided by client in this section (must be within 12 months of client's admission date).

This is not a standardized form and is required for all clients. Documentation must be actual **results** of the physical exam and the program's Medical Director must review the physical exam results within 30 days of admission. MD shall type or print name, sign, and date documentation supporting that they have reviewed the physical exam results.

If client has not had a physical exam within the past 12 months or has not provided a copy of their physical exam results, then a goal of obtaining a physical exam must remain on the initial and updated treatment plans until the physical exam results are provided **and** the MD has reviewed the results.
