- Intended audience is QI/QA staff and program management. Space is limited to 50 attendees, please plan accordingly for who will attend from your program.
- Participation via WebEx is an option for those unable to travel. Further information will be sent by email prior to the meeting.

Other Health Coverage (OHC) - Client with private insurance and Medi-Cal

- The providers are responsible for billing the client's private insurance if a client has dual coverage (private insurance is the primary and Medi-Cal is the secondary). However, since most (if not all) of our providers do not have a billing system outside SanWITS to bill OHC (Other Health Coverage), we've recommended two options:

1. Bill using the CMS 1500 form to submit a professional paper claim to the insurance. The standard Health Insurance Form (aka CMS 1500) can be purchased at any local retail office supply stores.
2. Providers request client to obtain a summary of insurance benefits and coverage (evidence of coverage) from the insurance company. The evidence of coverage must indicate that "SUD services are not covered" or specifies all coverage which may or may not include some SUD services. Billing Unit needs to receive this document to be able to bill DMC/Medi-Cal.

Note: Billing Unit cannot provide direct instructions on how to bill the private insurance because the County is not contracted with any private health carrier. SUD doesn't have a Clearing House to bill private insurances as well.

- If providers choose to bill the private insurance:
 - ✓ The provider will have the client complete and sign the Assignment of Insurance Benefits (AOB) form. The AOB form is available under the "Billing" tab on the DMC-ODS page of the [Optum website](#).
 - ✓ The provider will complete the CMS 1500 form or contact the insurance to get clear instructions on how to bill and to get the correct claims mailing address.
 - ✓ Billing Unit can assist provider in running the Claim Items report in SanWITS to identify the type of services with the corresponding HCPC codes.
 - ✓ The provider will submit the paper claim to the insurance carrier to obtain a claim denial or Explanation of Benefits (EOB).
 - ✓ Once the denial is obtained, the provider will email the denial letter to ADSBillingUnit.HHSA@sdcounty.ca.gov.
 - ✓ ADS Billing Unit will bill the secondary insurance as soon as we receive the valid denial letter or evidence of coverage from the primary insurance.

Helpful Tips

SanWITS Tip Sheets for Disallowances After Release to Billing

The Tip Sheets for Outpatient, Residential Bed Day and Case Management are now available under the "Billing" tab of the DMC-ODS page on the [Optum website](#).
The OTP tip sheet will be available soon!

Reminder: General Population aka "GP" Terminology

- General Population or GP is not a funding source and any use of this terminology on client documentation should discontinue.
- GP is often used to refer to "group" which can create confusion when reviewing client files.
- If clients are not DMC clients, the correct terminology is "county billable."

Reminder: Physical Examination Requirements

- Providers are required to obtain physical examination results for each client. If the client had a physical exam within the 12-month period prior to admission, the physician shall review the results within 30 calendar days of admission (for outpatient; 10 days for residential).
- If the client has not had a physical within the 12-month period prior to admission, the physician may perform a physical examination within 30 calendar days of admission for outpatient programs; within 10 days of admission for residential programs (if the program is able to provide IMS).
- If neither of the above have taken place, then a goal of obtaining a physical examination must be included on the initial and updated treatment plans. The goal should remain on the treatment plan until the physical examination results have been received and reviewed by the physician.
- In all instances, a copy of the physical examination results must be filed in the chart.
- Monitoring and disallowances related to this issue began with reviews that include new clients and new treatment plans as of August 1, 2019.
- Please refer to the entire Quality Management Memo found under the new “Medical Director Info” tab on the DMC-ODS page of the [Optum website](#).

Withdrawal Management (WM) Programs: Physical Examination Requirements

- WM programs must follow the same physical examination requirements as documented above, within the timeline of 72 hours from admission to review the physical examination results or provide a physical examination of the client (if the program is IMS certified).
- If the physical examination results are not reviewed within 72 hours or the client has not had a physical examination within the 12-month period prior to admission or within 72 hours at the facility, the treatment plan must include a goal for the client to have a physical examination and for the physician to review the physical examination results. This is required even if the program is unable to assist in completing the goal during the client’s treatment episode.
- Disallowances related to this issue for chart reviews will be for new clients and new treatment plans as of November 1st, 2019 at WM programs.

OTP Providers Data Standards

- Methadone dosing encounters are due no later than seven days beyond the end date on the encounter.
- In order for the data standards report to reflect the appropriate standard for Methadone dosing, all Methadone dosing encounters should have a start date and end date - **this applies to single and consecutive day methadone dosing.**
- After the encounter is end dated, methadone encounters should be “released to bill” and held in the claim item list until they are processed to bill by the provider’s billing staff.

OTP Providers Courtesy Dosing

- CalOMS admission and CalOMS discharge record should not be completed for Courtesy dosing clients.

All Providers

- All encounters should be “released to bill” under the administrative action link at the bottom of the encounter and held in the claim item list until the claims are processed to bill by the provider’s billing staff.
- Exception to this would be non-billable encounters which should be finalized under the administrative actions link at the bottom of the encounter.

All Providers: Release to Billing

- Once an encounter is created, providers should click "Release to Billing" under the Administrative Actions link at the bottom of the encounter. This action turns the encounter into a claim and sends it to the claim item list. Claims should be held in the claim item list until the provider's billing staff are ready to process the billing.
- Some claims will remain in "Hold" status in the claim item list and will never be batched such as county billable claims.
- Some claims will only remain in "Hold" status in the claim item list until the provider and/or the client receive Medi-Cal Eligibility.
- **Reminder: Only Non-Batched Claims in the claim item list can be rejected back to encounter state for corrections.** Once the claim is **batched** and enters the billing process it can no longer be rejected back to encounter state for correction.
- If you need further clarification on which claims need to be changed to "Hold" status, please contact the billing unit at ADSBillingUnit.HHSA@sdcounty.ca.gov

All Providers: CalOMS Reminders

- Data accuracy is critical especially on client's name and DOB, as these corrections can be time consuming since these affect the UCN and will require all previous episodes under that client profile to be resubmitted to the State to reflect the correction.
- There has been an increase on record deletion requests that were created in error. Below are some helpful tips to prevent errors that will require deletion.
 - ✓ Please search for clients at least 3 different ways prior to creating a new client profile.
 - ✓ Make corrections on the client record that receives the error by using the FSN to identify the episode. **DO NOT** create a new record to make the correction as this will result in a duplicate record.
 - ✓ **DO NOT** create a new episode for recovery services. This should be created under the treatment episode after a discharge record has been processed.
 - ✓ **DO NOT** create an admission for courtesy dosing.
 - ✓ If an episode is created under the incorrect client profile or incorrect facility, please contact the support desk immediately and **DO NOT** create a new one under the correct client profile or facility. MIS might be able to move the episode under the correct client profile depending on what records you've already completed.

Outpatient Providers: Changing LOC or Transferring Facilities

- If a client changes from IOS to OS, or vice versa within the same facility, the client must have a CalOMS discharge as referred from the treatment episode in SanWITS and begin a new episode with a new Admission as a transfer for the new level of care.
- If your program has multiple facilities and a client transfers to a different facility, you must complete a CalOMS discharge in SanWITS and open a new episode with a new Admission for the treatment the client is receiving at the new facility.
- The State requires each treatment episode to have its own CalOMS episode.
- For any questions on how to complete this process in SanWITS, please contact SUD_MIS_Support.HHSA@sdcounty.ca.gov.

See SanWITS Tip Sheets under the "SanWITS" tab of the DMC-ODS page on the [Optum website](#)

Outpatient - Group Sessions mixed with Non-BHS Contracted clients

- Groups may be mixed with BHS contracted and Non-BHS contracted clients.
- All clients that attend group must be marked as present on the group session list.
- **Non-BHS clients should not have an encounter created but must be marked present if they attend a group.**
- Recovery Service clients can only attend group with other Recovery Service clients and cannot be mixed with OS or IOS.
