<p>Outpatient services provided while a client resides in a lockout setting shall be documented with the following:</p> <ol style="list-style-type: none"> Appropriate Service Code for service provided (see case management exception below)* <i>Place of Service</i> = lockout setting (This stops services from claiming) 	
<p><u>All</u> outpatient services provided, including Case Management, while a client resides in the above lockout settings are non-reimbursable as these facilities are considered complete lockouts.</p> <p>**Outpatient services provided on the day of admission or the day of discharge from the above listed facilities are reimbursable <u>as long as the <i>Place of Service</i> is not the lockout location.</u></p>	<p><u>Most</u> outpatient services provided while a client resides in the above lockout settings are non-reimbursable.</p> <p>*Case Management services continue to claim to Medi-Cal, for the above listed lockout settings, regardless of <i>Place of Service selected</i>.</p> <p>It is important to know when to use a billable SC50 versus a non-billable SC800.</p> <ul style="list-style-type: none"> Case Management for discharge planning = billable SC50 All other Case Management = non-billable SC800 <p>**Case Management for discharge planning is allowed 30 days prior to discharge date. If discharge is delayed, case management is not claimable until a new discharge date is set. Once the new discharge date is identified, case management for discharge planning may then resume, up to a maximum of 3 nonconsecutive periods, per stay.</p>
