Reasons for Recoupment

FY 24-25 SMHS Reasons for Recoupment

In alignment with DHCS Compliance Monitoring requirements and CalAIM Medi-Cal Transformation initiatives, recoupment shall be focused on identified overpayments and patterns in documentation suggestive of fraud, waste or abuse.

Fraud and abuse is defined in CFR, Title 42, section 455.2. W&I, section 14107.11, subdivision (d) also addresses fraud. Definitions for "fraud," "waste," and "abuse," as those terms are understood in the Medicare context, can also be found in the Medicare Managed Care Manual.

Effective 7/01/2024, the reasons for recoupment are:

- **Claim submitted for service during a lock-out**
  - Examples include but are not limited to: services provided while a client is incarcerated, hospitalized at an inpatient psychiatric facility, a Crisis Residential Treatment Program, IMD facility, and/or services provided that conflict with the same-day billing matrix.
- **Missing documentation of allowable service**

- **Service not billable under Title 9**
  - Examples include but are not limited to: administrative only services, leaving a voice message, calling to schedule with a client and no other service was provided or deemed as solely academic, vocational, recreational, socialization, transportation, payee related

Reasons for Recoupment
