High-level Information about the SmartCare implementation

# Entry of Services

## Important Reminder

- **Programs should NOT enter any services into CCBH or SanWITS for dates of service occurring AFTER 9/1/2024**
- Any services entered in CCBH or SanWITS for dates of service occurring on or after 9/1/2024 will need to be re-entered into SmartCare to avoid billing impacts.
- **BHS will be contacting programs to fix services entered incorrectly. Services entered into the wrong system will not be paid.**

# For New Clients: CCBH Access is View Only

## Important Reminder: Do not document in CCBH

- Providers may need to view historic information in CCBH
- Most providers have CCBH access to allow for viewing of information for clients who have been opened to the provider's program.
- If needed, providers may open an assignment for the client in CCBH to view this documentation, and then close it in CCBH when the client closes with them in SmartCare, or once the necessary documentation was reviewed.
- **Providers should not complete any intake documentation or update any client information in CCBH – this is for view only purposes.**
- Exception: Providers may need to update information related to billing if the service is showing up on a suspense report

# Regularly Scheduled System Maintenance

## Details and Timeline

- Regularly scheduled SmartCare system maintenance will occur every Sunday at midnight into Monday morning
- SmartCare will be unavailable for 4-6 hours
- Use downtime procedures during this time
- You may experience extreme slowness if you log in at the end of the maintenance window

# Password Resets

## Details and Timeline

- SmartCare passwords must be reset every 90 days
- Users will be prompted at the end of each 90-day period
- Passwords must be at least 8 characters, include upper and lower-case letters, numbers, and a special character.

# Site Leads

**Thank you to the site leads supporting the SOC during go live!**

- Site leads completed a survey on September 27 related to their experience with the SmartCare implementation; 10% responded.
- Two primary themes:
  - Providers experienced difficulty knowing where to go for answers and issues during go-live
  - Providers wanted more focused training than offered via LMS alone
- Site lead briefings / meetings have now ceased, with critical discussion and decision-making occurring through the SmartCare Advisory Group.

# SmartCare Advisory Group

## Continuation of Advisory Group Activities

- Advisory Group meetings continue to communicate issues, discuss questions about policy change, and explore post go-live considerations.
- QA Representatives from both the MH and SUD SOC participate.
- The purpose is to share information, collaborate together with decision making representatives from the SOC, and work together to operate under a single SOC.
- BHS is working to secure a larger room given the increased demand for attendance.

Process to Access Support

# Issue Reporting & Questions

## General Help Desk Processes and Structures

- Contact the CalMHSA help desk first for all SmartCare issues and concerns
- Exception: If you know you need to submit an ARF, complete the ARF form and send directly to MIS at [BHS\\_EHRProject.HHSA@sdcounty.ca.gov](mailto:BHS_EHRProject.HHSA@sdcounty.ca.gov).
- If you have a question about access and are not sure if an ARF is needed, start by reaching out to the CalMHSA help desk.
- [QIMatters.HHSA@sdcounty.ca.gov](mailto:QIMatters.HHSA@sdcounty.ca.gov) should be used now only for clinically related questions (as with CCBH and SanWITS)

Recent Guidance and New Information

# Billing

## Important Reminder

- **Billing in SmartCare has not yet commenced;** BHS will give you notice before we begin.
- Instructions for invoicing BHS were sent to the System of Care on Thursday 9/26

## Error Correction

- SmartCare allows for users to correct some service note errors in the EHR themselves, while others require assistance from the County
- For more information on errors users can correct themselves, see “Service Note Errors and How to Resolve” on the CalMHSA website
- For errors requiring County assistance, users may request error correction directly from within the EHR, see “How to Report an Error That Needs to Be Corrected”
- More specific information is forthcoming.

# Reports

## Updates and Information

- BHS has formed a Reports Committee to prioritize report creation, determine gaps in the system, and advise on needed reports
- The EHR project team, data sciences, and other reports teams now have access to SmartCare reports and are having daily meetings.
- Dashboards and canned reports are being prioritized
- State reporting data cleanup and readiness is in progress
- An initial reports crosswalk has been posted on the Optum website

# ASAM Reporting

## All Youth Programs and Providers Not in SmartCare

- All SUD Programs that do not use SmartCare as their primary EHR for documentation must submit ASAM data to MIS every month.
- All programs who serve youth, regardless of their EHR, are required to provide ASAM data to MIS monthly for brief screenings only
- BHS has developed a process for ASAM submission to reduce dual entry and administrative burden.
- Instructions for submission and a reporting tool has been shared with the SOC and is on the Optum website.

# E-Prescribing: CaIMHSA Rx

## Details and Timeline

- Prior to go-live, it was believed that integration existed between CaIMHSA Rx and SmartCare; at go-live BHS learned the integration does not exist.
- To fix this issue, doctors and registered nurses were given direct access to CaIMHSA Rx; Doctors currently have access to prescribe medications and registered nurses currently have access to stage medications
- BHS is trying to provide access to LPHAs to view and document existing medications; the details at this time are unknown and will be shared ASAP.
- A one-page training is being developed by CaIMHSA
